Message from the Director

It is with immense pleasure that I welcome prospective students to the MDI Murshidabad family on behalf of the entire campus community.

The MDI society had established its second campus in Murshidabad, West Bengal in 2014 with the vision of imparting quality management education to students and nurturing them to become thought leaders of tomorrow. Four years after the laying of the foundation stone in October 2010, the then President of India, Hon’ble Shri Pranab Mukherjee, inaugurated the college infrastructure in August 2014. The occasion also saw the commencement of MDI’s flagship academic program, the Post Graduate Program in Management (PGPM), which is recognized by the All India Council for Technical Education (AICTE), New Delhi.

Since its inception, MDI Murshidabad has been committed to achieving academic excellence through its sustained focus on inculcating and harnessing the innovative potential in its students, enabling them to become quality managers as well as global leaders. The campus has achieved success not only in terms of its state-of-the-art infrastructure and expert faculty but also in terms of covering several milestones in cognate domains. These include organizing MDPs, industrial visits, business symposia, corporate events, etc. Needless to say, our students and faculty members have played pivotal roles in seeing each occasion through its satisfactory conclusion.

MDI Murshidabad has made significant all-round progress in the past year, granting the academic year 2018-19 a special place in our memories. To begin with, MDI Murshidabad received A* (A star) grading at National Level and A*** (A triple star) grading at State Level from the premier rating agency CRISIL. Further, we were recognized by the NHRDN-Shine.com B-School ranking survey as the best emerging B-School in the country. And, last but not least, we also had the privilege of being instituted as one of the members of the prestigious Association of Management Development Institutions in South Asia (AMDISA) for a period of five years, effective from April 2019 to March 2024.

Some of the academic progress achieved by MDI Murshidabad last year also merit recounting. With the aim of enhancing their knowledge and experience, students of MDI Murshidabad participated in, and completed, many live projects on various industries located in the West Bengal region. Around 25 corporate-level talks by distinguished corporate leaders were organized to create an ecosystem for academia-industry collaboration and blended learning. The Annual Management and Cultural Fest of MDI Murshidabad, Campxotica’19 was held from January 31 to February 3, 2019. MDI Murshidabad organized the First National Alumni Meet (NAM 18) on November 18, 2018, at the MDI Gurgaon campus. The 5th Edition of Vicarana, the flagship Annual Corporate Talk of MDI Murshidabad was held on November 24.

2018 also became the year when MDI Murshidabad set up state-of-the-art Bloomberg Finance Lab powered by 4 Bloomberg Terminals in the month of December. The vision of the Finance Lab is to enhance the vision of developing thought leaders and change masters by incorporating next-generation tools into institutional learning processes. This year, the Institute is planning to establish a Marketing simulation lab to boost the learning and practical strategic applications related to B2B and B2C markets.
Underscoring its commitment to promoting the culture of success, learning, and growth in all spheres, the Institute has constituted three Centers of Excellence (COE) such as Centre for Agri business & Food Processing, Centre for Artificial Intelligence, and Centre for Entrepreneurship & Start-ups.

MDI Murshidabad has hosted several events organized by student-driven clubs and committees. Notable among these are Vicarana and Budget Xpress, both annual events. Others are Brandify, FinQuest, SigMa, TRiVla, tHRust and HrUdbhav. Organized by the subject-specific clubs, these, along with quizzes, case studies and other management competitions, are among a variety of regular events that are hosted on the campus. Our students have also shown their talent by participating and winning accolades in competitions held at other renowned B-schools in the country.

The Institute has always endeavoured to strengthen its core faculty. Presently, we have a good mix of young, dynamic and experienced Faculty Members, who double up as institution builders and student mentors. The MDI community also focuses on promoting the growth of a knowledge-sharing culture among institutions. As such, the teaching faculty from MDI Gurgaon (MDIG) holds classes at Murshidabad. At the same time, our students also get to interact with specialized faculty from other top institutions in the region including IIM Calcutta, ISI Calcutta, IITs, Jadavpur University, Calcutta University, IIFT, etc. Distinguished personalities across India in the field of academics, industry, business, government, culture and international relations, pay frequent visits to MDIM to engage with students and enrich their learning.

MDI Murshidabad hasn’t let its relatively recent beginnings stop it from providing its students with best-in-class placement opportunities. In fact, last year we ensured that our students received summer internship and final employment offers from prominent organizations from across India. These include ICICI Bank, HDFC Bank, IDFC First Bank, Federal Bank, ICICI Securities, Arohan, TIL, SKF, Total, Berger Paints, OYO, Coffee Day Beverages, EazyDiner, Markets and Markets, Donaldson, Vinod Kothari Consultants, SBI Life, SVG Media, Ken Research, Ipsos, VLCC, Linde, Furnace Fabrica, Bellwether Advisors, Tautus, Chola, Ameriprise Financial, TATA Class Edge. Other eminent names are Infor, Magicpin, Home Credit, Tara Safe, Force Motor, Mavenmagnet, American Express, Bajaj Capital, IDFC, Karvy Fintech, RBI, SREI, Urban Clap, Stallion Barware, DS Group, Britannia, ITC, KPMG, Black Turtle, Ichelon Consulting, Kantar IMRB, GMI Research, Peepal Consulting, Tata Motors, Maruti Suzuki, Tega Industries, Balmer Lawrie, Donear, Zomato, Adventure Sindbad, Happ Coach, Oyster Connect, and Business World, among others.

We are of the firm belief that knowledge shapes character – and character is the essence of your identity. Hence, MDI Murshidabad aspires to be the crucible wherein your identity is metamorphosed through an exclusive process of comprehensive education, layered between character-building co-curricular activities that go beyond academics. While talent is appreciable, tenacity and fortitude are two decisive qualities that enable a student to grow. Challenging as it is, MDI Murshidabad’s rigorous routine is designed to ensure that resolute students come out of the fray learned, worthy, and possessing domain-defining capabilities. As such, all I ask you to do is rise above the challenge!

Our mission is to create an ethical and knowledge-centric culture by leveraging our focus on value-based education, industry-centric research, value-added consulting, and global best practices. In the end, we aim to help students become not only excellent professionals but also excellent human beings.

MDIM envisions being an excellent global business school known for its academic ambition along with its compelling influence in driving both the business domain and the society towards a responsible, kinder, and happier future.

Wish you the very best,

Curriculum Design

The PGPM curriculum has been designed to enrich student’s skills and abilities in order to enable them in applying management theories and concepts in live problems existing in business and industry. The programme enables students to identify and diagnose complex problems in management through hands on learning experiences. It includes gamut of pedagogy: lectures, case studies, seminars, assignments, live projects, group discussions, business games, outbound based experiential learning activities, educational excursions, role plays, simulation exercises, structured and unstructured group work, and field visits. Consistent with state-of-art technology, the programme integrates the use of computers (IT) in the learning process. The students undertake several field based projects/live projects) so that they can get better insights into real life situation. These all will inevitably assist students to achieve high standards of excellence.

Programme Structure

Core Courses

The PGPM course curriculum is spread across six terms with the bulk covered in the first three terms. These core courses will enhance the ability to communicate, analyze situations and make decisions by adopting quantitative and qualitative techniques. It even helps them to develop a holistic view of the different functional areas and the business environment. During this period, it is mandatory to opt for courses in general management and major functional areas, such as finance and accounting, marketing, operations management, information technology management, organizational behavior, human resource and strategic management. They get exposure to the basic disciplines of economics, behavioral sciences, managerial communication, business law, quantitative methods and decision sciences.

Summer Internship

At the end of the first three terms, students are required to undertake an industry internship or summer training to work on a project / life problem an organization. The internship usually spans over a period of eight weeks. This is a compulsory component of the curriculum for the completion of the academic requirements. It is designed to provide exposure to organizational work setting, develop an understanding of business realities, learn how to apply theory in real life business situations and find its relevance.

Specializations

In the second year, the student opts for elective/optional courses to specialize in a maximum of two functional areas.

These areas of specialization may deal with any of the following:

- Finance
- Human Resource Management
- Marketing Management
- Supply Chain Management

All elective Courses, however, may not be offered, as this would be determined by the number of students showing interest in aforementioned area of specializations. Details about the electives are made available to students when they join MDIM. To specialize in an area, a student must opt for a minimum of five elective courses offered in that area that assigns a weightage of 15 credits and three each for a course. Students will be allowed to opt in a range of 14 to 17 electives. However, CGPA would be decided based on the best 14 electives out of total electives where students have scored relatively better.
The Institute has envisaged new electives in line with latest demands of the students and corporate like Econometrics and many more expected to appear in the forthcoming academic session that will meet corporate requirements.

**Evaluation**

The evaluation system for the PGPM has been designed to achieve the following:

- Evaluate the progress of learning of each student
- Prescribe and promote certain acceptable and uniform standards of comprehension
- Encourage healthy and constructive competition among the students

MDIM follows a system of continuous evaluation. Throughout the term, students have to appear in various tests on their ability to understand concepts, learn techniques and apply them to problems in the real life situation relevant to corporate. At each stage of the course through continuous feedback, the students would be in a position to gauge their performance and take remedial measures in order to make improvements. In each course, a student will be thus awarded a grade sheet only. The weighted average of all courses taken by a student in the programme will give the Cumulative Grade Point Average (CGPA).

**Recognition**

On successful completion of the programme requirements, a student will be awarded a Post-Graduate Diploma in Management, PGDM, which has the approval of the All India Council for Technical Education (AICTE), Government of India.
